37	117179 BETT,LAWRENCE KIPKIRUI (5455189 )	254702898432 A.O.B	The Share price is rapidly losing value, is it reflective of the value of the company? and what can be done to correct this position		Dear Lawrence, thank you for your question and participating in this year's AGM. The Board and new management of the company are working hard to improve performance and profitability of the Group. We hope that this will start to show results soon and that the share price will increase as a result. The Group has a depth of talent and expertise across the markets that it operates in. We have had a few significant wins of business this year giving confidence to our ability to take the business back to growth and profitability. Having said this, we also are cognisant of the Global macro economic headwinds due to the war in Ukraine, inflationary pressure in USA and Europe and slower rebound in China, resulting in the GDP of Global Markets GDP being more subdued. This impacts our local Kenyan Macro environment, and we are seeing economic growth rates being revised, indicating that the market is tough. This creates risk aversion for investment into frontier and emerging markets and subdues growth. These macro economic factors have had and will continue to impact the NSE index and trading volumes on the bourse. We have a large constituency of foreign investors and these global factors have impacted their sentiments yielding a bearish view, this reflected in the overall decline in the stock prices at the Nairobi Stock Exchange.

Dear Winnie, thank you for your question and participating in this years AGM, The Board and new management of the company are working hard to improve performance and profitability of the Group. We hope that this will start to show results soon and that the share price will increase as a result. The Group has a depth of talent and expertise across the markets that it operates in that is unrivalled. We have had a few significant wins of business this year giving confidence to our ability to take the business back to growth and profitability. Having said this, we also are cognisant of the Global macro economic headwinds due to European war and the federal rate hikes due to inflationary pressure in USA and Europe and slower rebound in China, resulting in the GDP of Global Markets GDP being more subdued. This impacts our local Kenyan Macro environment, and we are seeing economic growth rates being revised, indicating that the market is tough. This creates risk aversion for investment into frontier and emerging markets and subdues growth. These macro economic factors have had and will continue to impact the NSE index and trading volumes on the bourse. We have a large constituency of foreign investors and these global factors have impacted their sentiments yielding a bearish view, this reflected in the overall decline in the stock prices at the Nairobi Stock Exchange.

Does your planet pillar have robust plans towards the climate change agenda globally and how?	We have identified 3 material areas under our Planet pillar: -Climate crisis and carbon & footprint reduction- In 2022, we started measuring our Scope 1 & Scope 2 emissions. We are currently working on developing Scope 1 & 2 targets which shall be ready over the next 12 months. The targets shall, in the medium term, speak to achieving net zero emissions from our operations. To address Scope 3 emissions, Group M, our holding company's media trading company, has developed and released a methodology for calculating emissions from media with a commitment to advocate for shared industry standards and accelerate the decarbonization of the world's media supply chain. In February 2023, the agency launched a new media omnichannel carbon calculator for clients. This tool is available to our local clients through our GroupM subsidiary. -Office considerations- we are already looking at a more ergonomic office that ensures access to persons who are differently abled. -Energy & resource considerations- as above, we are already working at a more energy & resource efficient office

107	95011 MBURU,CAROLINE WAITHIRA (939650 )	254722742297 A.O.B	Mine is just a concern, probably an operations issue, am tired of seeing the same faces advertising different products for different companies, sometimes you cant even tell the product that is even being advertised. Even the voice overs sound the same you cant even tell apart the products. That may not be effective marketing because we are slowly getting used to seeing and hearing the same things, its boring.	Dear Caroline, thank you for your question and participating in this years AGM, your concern is noted,

110	57415 OGOLA,CARL ADAM (104264 )	254721813074 ANNUAL REPORT AND FINANCIAL STATEMENTS	1. Why not take advantage of the current low share price on the NSE to return value to shareholders by carrying out a share buy back, much as our parent WPP has done in the UK? Scangroup has the cash! If not demonstrate to shareholders that by retaining capital, this can be deployed in a way that gives greater value to shareholders than a share buyback or a dividend payout. i.e it better in your pockets than in ours! 2. Noted a deterioration in the cash position despite higher dividend yields prevailing in 2022 compared to the prior year. What is the reason for this? A comment - there is no reason that I can see that prevents Scangroup announcing final year results within 60 days of the year end, as our parent does. AGM to be held no later than mid-May. I'm aware of the CMA regulations on timelines etc., but we need a demonstration of efficiency from management in this regard. Likewise for calling for and holding of AGM, which in my view, can be held in early to mid-May latest.	Carl, thank you for attending the AGM. At the moment, there is no intent for a share buy back. As articulated in the AGM, the company has an aggressive growth agenda and will be exploring other investment opportunities (weighing risk and return) that are to bring higher value to shareholders. The reduction in cash is driven by lower trading in 2022 and payment of liabilities including media suppliers.
