71 OGOLA,CARL ADAM	ANNUAL REPORT AND FINANCIAL STATEMENTS	Good morning. Given that our majority shareholder, WPP plc, announced their FY2023 results, that presumably included the Scangroup numbers, before the end of February 2024, why does it take Scangroup a further more than two months, to publish theirs for the same period? It has been the trend for Scangroup to take almost four calendar months after each year end, to announce its audited financial results - to me, that is gross inefficiency, particularly given the improvement in automation and technology over the last few years - and perhaps is an indication of a deeper malaise within our company. What is the revenue expected to be generated from the disposal of the HK South Africa subsidiary? Please provide some details of the litigation with the ex-CEO (Bharat Thakrar) - i.e. what is Scangroup being sued for and what is the amount involved in Kshs terms? What measures is the Board considering to restore shareholder value given the destruction in the share price of the company, as traded on the NSE, over the last couple of years? Is a share buy back this financial year being considered, and if not, why not? Thank you.	Web	Thank you Carl. WPP Scangroup published its financials within the CMA deadline of April 30th. Given our vast presence across the region and the thorough reviews needed, it takes a little more time for sign off. The finalization of the purchase price for H&K South Africa is still in progress. The company is in the process of pursuing court pleadings to enter an appearance and prepare a suitable defence in response to the ex-CEO litigation and as it is an active litigation in court, we cannot comment any further. The board and management is making all endeavors to set up the company on a stronger path, including development of higher margin products, re-organizing the cost structure etc. in order to return value to shareholders.
